Comments: Our poor, poor planet is much too close to her tipping point for us to be enacting policies that will only serve to push her over the edge. We must preserve whatever precious little pristine wilderness remaining and re-wild much of that stolen from the animal nations. Since we've put a man on the moon, the human population has more than doubled while that of wild animals has more than halved. The survivors need protection and deserve to live and raise their families in peace. A strip mine has no place in the River of No Return Wilderness.
