Title:

Comments: The new proposed road would sit 100 feet from the wilderness boundary or could even enter the Wilderness, as the most logical location for the road seems to be an existing pack trail that dips into the Wilderness. The last thing this area needs is more toxic mining and associated impacts.

The Forest Service needs to deny the permit for Perpetua Resource's Stibnite Gold Project and require Perpetua to finish cleaning up the mine site. The Nez Perce Tribe has been actively working to clean up the South Fork of the Salmon and has challenged this mining proposal. The last thing the area needs is more toxic mining pollution and all other harmful impacts.

Please allow them to continue this necessary work.

Yours sincerely,

Barry Smith
