First name: Sherrill

Last name: Futrell

Organization:

Title:

Comments: The River of No Return Wilderness is a jewel in America's crown and your "preferred alternative" would damage it - and the East Fork of the South Fork of the Salmon. Mining and road building and all the noise they cause would disturb our wildlife, pollute the river and bring in more human activity. I don't know why the Forest Service is hellbent on destroying our natural heritage but I'm sick of it and will fight you till my dying day. As far as I'm concerned you act like traitors to the United States. Let your bosses go dig for gold in hell.
