Title:

Comments: The Forest Service needs to deny the mine permit and require Perpetua to finish cleaning up the mine site.

The Stibnite Gold Project puts not only the famed Frank Church-River of No Return Wilderness at risk, but also the East Fork of the South Fork of the Salmon River and endangered species such as salmon, steelhead, and bull trout.

I am a boater and we need to protect these waterways. I'm rafting on the Salmon River this summer. You do not want to lose out of the tourist dollars because of a shortsighted greedy mining operation.
