Title:

Comments: The Stibnite Gold Project puts Frank Church-River of No Return Wilderness at risk, and also the East Fork of the South Fork of the Salmon River and endangered species such as salmon, steelhead, and bull trout. The last thing this area needs is a disruptive poorly analyzed project for profit venture whose effects on wilderness have been downplayed.

This area doesn't need more mining and disruption of ecosystems.

The Forest Service needs to deny the permit for Perpetua Resource's Stibnite Gold Project and require Perpetua to finish cleaning up the mine site.
