Title:
Comments: Your greed is obscene. Your money will never protect you in the end and those who bestow it upon you do not care if you thrive or die. You need to know that whatever money you leave your grandchildren, they will despise you for ever.

I am using the words of Wilderness Watch because they are far more polite and directed than anything I can come up with. Again, you need to know that your grandchildren will despise you if you give this land to a mine.

The Stibnite Gold Project puts not only the famed Frank Church-River of No Return Wilderness at risk, but also the East Fork of the South Fork of the Salmon River and endangered species such as salmon, steelhead, and bull trout.

Under the preferred alternative, road construction and mining operations would cause serious impacts to the River of No Return Wilderness, including noise audible from a nearly 2-mile radius, wildlife disturbance and displacement, increased access to and activity in what are now quiet and lightly-visited places in the Wilderness, and sediment pollution in streams within the Wilderness.

The wilderness evaluation erroneously downplays these impacts. (NO SURPRISE THERE!)

The new proposed road would sit 100 feet from the wilderness boundary or could even enter the Wilderness, as the most logical location for the road seems to be an existing pack trail that dips into the Wilderness.

The last thing this area needs is more toxic mining and associated impacts. (REMEMBER YOUR GRANDCHILDREN WILL DESPISE YOU FOR THIS)

The Forest Service needs to deny the permit for Perpetua Resource's Stibnite Gold Project and require Perpetua to finish cleaning up the mine site.
