Title:

Comments: The Forest Service should deny the permit for Perpetua Resource's Stibnite Gold Project and require Perpetua to finish cleaning up the mine site.

The Stibnite Gold Project puts both the Frank Church-River of No Return Wilderness and the East Fork of the South Fork of the Salmon River at risk, along with endangered species such as salmon, steelhead, and bull trout.

Under the preferred alternative, road construction and mining operations would seriously impact the tranquility of the River of No Return Wilderness and the noise and increased activity would harm wildlife. Furthermore, the proposed road would run close to the wilderness boundary, bringing further disturbance.
