Title:

Comments: Please do not provide a permit for Perpetua Resource's Stibnite Gold Project. The consequences on the environment could be disastrous. This project not only puts the Frank Church-River of No Return Wilderness at risk, but also the East Fork of the South Fork of the Salmon River and endangered species such as salmon, steelhead, and bull trout. The last thing this area needs is more toxic mining and associated impacts. I am writing to ask the Forest Service to deny the permit for Perpetua Resource's Stibnite Gold Project and require Perpetua to finish cleaning up their current mine site.

Please have the courage, strength, and intelligence to do the right thing for America's environment. Current and future generations will thank you.
