Title:

Comments: Dear Sir-Madam, Perpetua Resources (formerly Midas Gold) is proposing a massive strip mine on the Payette National Forest at the doorstep of the famed Frank Church-River of No Return Wilderness and in the headwaters of the East Fork of the South Fork of the Salmon River in Idaho.

The Stibnite Gold Project puts not only the famed Frank Church-River of No Return Wilderness at risk, but also the East Fork of the South Fork of the Salmon River and endangered species such as salmon, steelhead, and bull trout.

The last thing this area needs is more toxic mining and associated impacts.

The Forest Service needs to deny the permit for Perpetua Resource's Stibnite Gold Project and instead require Perpetua to finish cleaning up the mine site.

Yours Faithfully, Bernt Johansson.
