Comments:

The famed Frank Church-River of No Return Wilderness is contaminated by the Stibnite Gold Project Mine, so is the East Fork of the South Fork of the Salmon River, endangering species such as salmon, steelhead, and bull trout.

Road construction and mining operations will have very negative impacts for the River of No Return Wilderness, too much noise, disturbance of wildlife, displacement, and increased access to and (hunting/poaching) activities in an almost untouched wilderness area. Please lets keep it this way , deny the permit, and force Perpetua Resources (formerly Midas Gold) to clean up their mess.
