Comments: Do not allow a strip mine at the Frank Church-River of No Return Wilderness. You will not only put the Wilderness area at risk but also the Salmon River and endangered species such as salmon, steelhead, and bull trout. A wilderness area should have peace and quiet not noise pollution from a mining operation. In addition, there would be toxic environmental impacts from the mining. The Forest Service needs to deny the permit for Perpetua Resource's Stibnite Gold Project and require Perpetua to finish cleaning up the mine site.
