Last name: Gover

Organization:

Title:

Comments: * The Stibnite Gold Project puts the River of No Return Wilderness and the East Fork of the South Fork of the Salmon River at risk. It puts endangered species, salmon, steelhead, and bull trout, at risk.

* Road construction and mining operations would cause impacts to the River of No Return Wilderness: noise; wildlife disturbance and displacement; increased access to remote places; and stream sediment pollution.

* The proposed road could follow the pack trail that is close to the Wilderness boundary and enters the Wilderness.

* I recommend requiring Perpetua to clean up the mine site and denying a permit for Perpetua Resource's Stibnite Gold Project.
