Title:

Comments: The Stibnite Gold Project puts not only the famed Frank Church-River of No Return Wilderness at risk, but also the East Fork of the South Fork of the Salmon River and endangered species such as salmon, steelhead, and bull trout. The DISASTROUS impacts are ignored, at great peril.

The Forest Service needs to deny the permit for Perpetua Resource's Stibnite Gold Project and require Perpetua to finish cleaning up the mine site. We cannot continue to destroy our environment, our matrix of life. NO FURTHER POLLUTION!!!
