Comments: Having traveled 3 separate times by raft and kayak down the Salmon River and therefore seen the Frank Church-River of No Return Wilderness close at hand, any changes to this beautiful sacred wilderness should not be allowed.

The Stibnite Gold Project puts not only the famed Frank Church-River of No Return Wilderness at risk, but also the East Fork of the South Fork of the Salmon River and endangered species such as salmon, steelhead, and bull trout.

Thank you for reading my comments and I hope you will keep this beautiful wilderness as is for years to come!
