Comments: Deny the permit for Perpetua Resource's Stibnite Gold Project and require Perpetua to finish cleaning up the mine site. The permit would both harm the Frank Church-River of No Return Wilderness, the East Fork of the South Fork of the Salmon River and endanger species such as salmon, steelhead, and bull trout by causing sediment pollution.

Road construction and mining operations would cause serious impacts to the River of No Return Wilderness. Excessive noise, wildlife disturbance and displacement, increased access to and activity in what are now quiet and lightly-visited places would change the area from wilderness to industrial. What a waste.
