Comments: Please deny the mine permit and require Perpetua to finish cleaning up the mine site.

The Stibnite Gold Project puts the Frank Church-River of No Return Wilderness, the East and South Forks of the Salmon River, and endangered species such as salmon, steelhead, and bull trout at risk.

Under the preferred alternative, road construction and mining would cause serious impacts, including noise for a nearly 2-mile radius, wildlife disturbance and displacement, increased access to quiet and lightly-visited areas, and sediment pollution in streams within the Wilderness.
