Title:

Comments: The Forest Service needs to deny this mine permit and require Perpetua to finish cleaning up the mine site

Under the preferred alternative, road construction and mining operations would cause serious impacts to the River of No Return Wilderness, including noise audible from a nearly 2-mile radius, wildlife disturbance and displacement, increased access to and activity in what are now quiet and lightly-visited places in the Wilderness, and sediment pollution in streams within the Wilderness.

The last thing this area needs is more toxic mining and associated impacts.
