Title:

Comments: Hi there,

I am opposed to this project on the grounds of salmon recovery and the protection of the presume nature of the frank church wilderness and surrounding area. I work as a guide in this wilderness area and make my living from the untrammeled appeal of this entire region. Allowing this project to proceed would jeopardize my work, the natural habitat of the area, and the survival efforts of this areas wild flora and fauna. Please oppose this project!  
Please!

-Hunter Holtrop
