Title:

Comments: Here we go again..a company who's owners greed for money completely blinds them in seeing what they plan to destroy. It's a wonder if any of the big wigs suits have even step foot on the land they want to forever devastate. Evidently the only GREEN you enjoy are Benjamins, wait, correction Salmon P Chases. The area proposed is a beloved area by many, for ALL THE BEAUTY it offers. The apparent complete disregard of the impact to wildlife, water, the fisheries, and the folks who live and recreate in this area is appalling and downright vile..all for batteries?!

Rape and Scar the land, smile and toast to your bank account. Congratulations you are disgusting.
