Comments: To Whom It May Concern,

When will the constant destruction of wild land AND a beautiful, beautiful river - EVER END?

And doing this for the profit of Stibnite Gold Project!?!?! Really???

For the profit of one company, you will permanently ruin such a beautiful area?

Well enough is enough!!! There HAS TO BE an end to commercialization of nature! You can NEVER ever replace it!

People & nature are WAAY more important than ANY COMPANY!

I'm sick - of watching this sort of raping nature going on everywhere!

Please reject this Gold Project!

Does anyone seriously care about all the consequences?

It breaks my soul!

Do NOT allow this! Leave nature and the beautiful river alone for your children and their children.
