First name: Paul

Last name: Cooley

Organization:

Title:

Comments: The River of No Return Wilderness must not be subject to more damaging mining operations, and Perpetua, the owner of old mines, must be compelled to finish cleanup of the former mining sites.

The new project would endanger native fish habitat and potentially endanger humans as well, with its planned cyanide vat leach sites. Who in his or her right mind would put cyanide in a Wilderness Area?

Please do not allow this new project to proceed.
