Title:

Comments: I, personally, cannot envision even a single square inch of this precious landscape to be marred by this destructive strip mine! If anything we should do everything in our power to protect and defend such places. Seeing how our destructive actions have negatively impacted our very planet and in effect our and every other animal and plant's survival, we must make sure we go in the opposite direction. Please, respect these marvelous and irreplaceable places and let them stay wild. The Forest Service needs to deny the permit for Perpetua Resource's Stibnite Gold Project and require Perpetua to finish cleaning up the mine site.
