Comments: Please do not allow one more acre of America's few remaining wilderness areas to be used commercially. I want to leave my grandchildren the best of the world I was so fortunate to grow up in, and so do all my friends and associates that I have spoken with about this subject.

The last thing this area needs is more toxic mining and the associated impacts. The Forest Service should deny the permit for Perpetua Resource's Stibnite Gold Project and require Perpetua to finish cleaning up the mine site.
