Comments: The Stibnite Gold Project puts not only the famed Frank Church-River of No Return Wilderness at risk, but also the East Fork of the South Fork of the Salmon River and endangered species such as salmon, steelhead, and bull trout.

Road construction and mining operations would cause serious impacts to the River of No Return Wilderness disturbing and displacing wildlife. Sediment pollution would be in streams within the Wilderness.

The new proposed road would sit 100 feet from the wilderness boundary. The last thing this area needs is more toxic mining and associated impacts.

Please deny the permit for Perpetua Resource's Stibnite Gold Project and require Perpetua to finish up the mine site.
