Title:

Comments: I urge The Forest Service to require Perpetua to clean up the mine site and deny the permit for Perpetua Resource's Stibnite Gold Project. The area does not need more toxic mining!

The Stibnite Gold Project puts the Frank Church-River of No Return Wilderness, the East Fork of the South Fork of the Salmon River and endangered species at risk.

Even the "preferred alternative" would cause serious impacts to the River of No Return Wilderness, including excessive noise, wildlife disturbance and displacement, increased human access and activity, and sediment pollution in streams.

Please do the right thing for Wilderness, our planet and all of its inhabitants.
