Comments: The Forest Service needs to deny the mine permit and require Perpetua to finish cleaning up the mine site. The Nez Perce Tribe has been actively working to clean up the South Fork of the Salmon and has challenged this mining proposal. The last thing the area needs is more toxic mining pollution and all other harmful impacts. Allowing there to be true wilderness is more valuable to human kind in the long term than any value that can be had by a mine. Thank you for reading my comments and taking them into consideration.
