Comments: Veto and crush this effort at every opportunity ! This wilderness was established decades ago and ANY kind of commercial interest has no business ANYWHERE near it ! Have you ever been on the upper Selway around MacGruder cabin...or perhaps around the confluence of Kelly & Cayuse creeks ? Like the Frank Church, these last few remaining undisturbed places need to remain AS THEY ARE when the LAWS that made them wilderness enclaves were enacted. Do what is right and kill this greed-driven effort.
