First name: Mary

Last name: Reiman

Organization:

Title:

Comments: Through which towns will the 3000 truckloads per year be traveling?

What will be done to assure no accidents happen to contaminate the environment?

How will the elevated levels of arsenic affect human and environmental health?

Will you be installing monitors for daily analysis?

What's going to be done to protect the environment for this project? Specific measures?

What happens with the (gold) that is mined from this public location?

How does the public benefit, if at all?

Thank you.

Mary
