First name: Alice

Last name: Elshoff

Organization:

Title:

Comments: Having spent time on the south Fork Salmon River I know this area to be a quiet and little accessed area, allowing the Frank Church Wilderness to do what Wilderness areas do best: protect water and fish, provide clean air, protect wildlife, and simply let nature's processes endure.

Permitting the Stibnite Gold mine could change all that. Please deny this permit and require Perpetua Resources to clean up the site.

Respectfully,

Alice
