Title:

Comments: Please don't allow this mine to go through. These types of mining operations result in permanent Super Fund sites, like in Butte, MT.

Don't allow this company to come in and destroy public lands to make quick profits at the expense of long-term losses.

Also, everything downstream will get polluted beyond repair.

How will this mining traffic affect Idaho's roads? What about the arsenic emitted into the atmosphere? What's preventing this mining operation from declaring bankruptcy to avoid cleaning up its mess? How will this affect everything downstream?

Thank you for your time.
