Comments: Hello I am here to speak about opposition to the stop note gold project.

It is not only horrible for the chinook and other fish species it will further hurt the environment and ecosystem all around the area, regardless of what "tactics" are taken.

With the project being on over %70 public and protected land it seems beyond unreasonable to open up a old mine and destroy what the area already has so much to offer, for everybody, instead of only the few involved in the mine.

I am fully against this project and want to be heard
