Comments: I OPPOSE the Stibnite Gold Project.

This mine will disrupt interconnected ecosystems and put the River of No Return Wilderness at risk. It will adversely affect tributaries of the Salmon River and the Salmon River itself. And it threatens endangered species such as salmon, steelhead, and bull trout.

This project will deter people from coming to enjoy the uniquely WILD quality of the River of No Return Wilderness and reduce tourist income in Idaho's gateway communities.

I ask that the Forest Service DENY the permit and require Perpetua Resources to clean up the mine site and remove any roads it has already put in.
