First name: Bret

Last name: Moffett

Organization:

Title:

Comments: I oppose restarting the Stibnite mine. There is no reason reason whatsoever to jeopardize this precious ecological resource to enrich a few wealthy businessmen and shareholders. I was a resident of Boise for the past 31 years and only just moved to Tucson. I am very familiar with this watershed having hunted and fished in the vicinity for decades. A responsible decision to disallow this operation will be for this and future generation's benefit. Thank you for reading. Please feel free to contact me about this subject.
