Comments: Hello there,

I am a 40 year Idaho resident and avid wilderness user. I have run all the South Fork Salmon river and tributaries many times and participated in the Wild and scenic studies. I strongly oppose the Stibnite Mine

- The increased traffic on Highway 55 is of concern and has not been adequately addressed
- Valley County does not need growth
- The tribes have not approved the mine
- Air Quality has not been addressed
- The plan to improve fish is flawed
- A gold mine is unneeded. And weighted against all the potential damages makes no sense. What could go wrong?
- "Care for the land...Serve the people"

Thanks, Don
