Comments: Don't mine here! Not for gold and not for anything. Keep your dirty oil and your empty beer cans and chewing tobacco spit off our nature. It's not yours, and even if you think it's yours just cause your racist granddaddy gave a Native American small pox so he could cut big trees down. Keep your entitled wad sucking dirty mouths off the land where it doesn't belong. You're all corrupt. Go put your efforts into getting fresh water to people in need instead of continuing to rape the land.
