Title:

Comments: I am a river and wilderness lover. I oppose the Stibnite Gold Project as proposed. It will cause irreversible harm to the area. It has the potential to adversely affect water quality, air quality, ecological health, wetlands, groundwater, riparian areas, wildlife, and outdoor recreation. It will have impacts that affect the traditional homelands of the Nez Perce, Shoshone-Bannock, and Shoshone-Paiute Tribes. We need to explore other alternatives and designs to minimize the impacts to wilderness, wildlife, water quality and fisheries.
