Comments: As a life long lover of the rivers across the country, I can truly say the salmon river drainage is some of the most pretty and pure areas I have ever been to. Part of the reason for this is the untarnished ecosystem which is so full of life. Adding roads and mines to this area will destroy not only a beautiful place for humans to visit and recreate, but the habitat and future watershed that everything will rely upon. Thank you for your consideration . Please do not allow this mine to be created.
