Comments: Lessons and learning amount of joy given on the south Salmon River specifically let alone the whole salmon river system is completely changed my life. Without I do not know where I would be. It is a vital source of energy in water for biggest river system in the country and that should not be hindered by greed and money.There's many other places in the world this type of project to be done at outside of the headwaters of one of our greatest rivers in the world! What is life, don't ruin it for all of us. Thank you so much!
