Comments: Gold mine with access bordering the Frank Church Wilderness? When one thinks of the 24 hour a day traffic of miners and supply trucks going to and fro along a wilderness area in a wilderness study area you know something is very wrong.

That's not to even consider the huge trucks on rt 55 and probably coming on rt 75 and rt 21 to get there.. just what the Salmon and Payette rivers roads need more huge trucks .

What's happened to the gold mine up Jordan Ck in the Yankee Fk area is they closed down, but don't have to clean up because they leave a couple workers there and never have to do their reclamation work. It's cheaper to have a couple workers than it is to reclaim the mess.

Mining companies are full of false promises which they seldom fulfill. Tailing ponds full of chemicals held back by precarious dams subject to radical weather events ever more frequent because of global warming.

Go back to Canada is what I say.
