First name: Eric

Last name: Braun

Organization:

Title:

Comments: I am concerned that the Stibnite Gold Project will cause irreparable damage to the surrounding areas in the Salmon river drainage. This area holds great natural beauty and its value for recreation activities alone cannot be quantified. We should be doing more to protect land in the Boise and Payette National Forests for future generations, not re-trying failed ideas of the past. I urge the Forest Service to pick the No-Action alternative.
