Comments: I would like to voice my opposition to the Stibnite gold mine. First and foremost I do not believe that substantial harm to our natural resources can be avoided. Wildlife and fish habitat will be adversely affected.

Many of the fish and wildlife affected are threatened species. I also believe the mine will have a negative impact on the surrounding areas, towns, roads, and possibly other rivers that 3,000 loads of hazardous materials will be trucked through and along annually. I am a lifetime McCall resident who spends a great deal of time in Idaho's remarkable backcountry including the area that will be affected. I am afraid that some of these treasured areas may never be the same if the mine is approved.
