Title:

Comments: I'd like to be able to kayak this with my sons. They enjoy the outdoors greatly & don't sit at home playing video games & mooching off the government (taxpayers), they're productive members of society. The outdoors is something to be cherished, not to the point that Americans can't function but there has to be a healthy balance & a gold mine is not a healthy balance. Please vote no on this gold mine, as it is only good for a few people. I vote NO. I want to enjoy time with my sons in the beautiful West.
