Comments: If this idiotic people who want to build a mine actually follow through with their plan, then it will be the end of Idaho's wilderness. They are trying to ruin prestige nature just to get some money in their pocket. Is money worth destroying the ecosystem of the east fork of the salmon river. In the mind of everybody else beside these psychotic miners, building a mine is wrong! The mining company which is owned by people who have never been to Idaho before this project, and have no respect or love for the land. Those idiotic people are the reason behind global warming endangered species. That is the reason we need to stop these idiots from making further mistakes and from causing further damage to the ecosystem. So please, I beg of you, stop these money Hungary, inconsiderate psychos from ruining Idaho's wilderness.
