Comments: To whom it may concern:

I have worked in the pipeline industry since I was 16 yrs old. I never wanted to do anything else

It has been my experience that the projects I had the pleasure to work on always left the land exactly as we found it if not better. The industry standards for safety and environmental impact are always in compliance with the applicable requirements. Thank you for your time and careful consideration of this project. It would mean a lot to the industry I have been a part of for 50 years.
