Comments: As a life time resident of Juneau, I ask that other than trail repairs and extensions, that you "leave" the Mendenhall Glacier Visitor Facility alone. There is an old saying of loving something to death, which is happening here at the glacier and other places. As residents we enjoy the glacier year round, 24 hours a day - the average tourist 2 to 4 hours if that. Not to mention that in 50 years or so the glacier may be gone permanently anyway! Most residents can't even enjoy our glacier during the tourists months due to all the crowds.

If you can't accomodate the buses and amount of tourists, than start a lottery system like they have started at a famous tourist bay in Hawaii.

I ask that you don't turn our natural, quiet Mendenhall Glacier into a noisy mini amusement park.

Have you been to Disney lately!

Thanks.
