Comments: The Trails System, Recreation Facilities, and Fuels & Vegetation Treatments appear to be good appropriate changes on Jackson Mountain. I do NOT see how opening a non-commercial Gravel Pit in the middle of recreation facilities is good or appropriate. In an area where children, teens, and families are to be enjoying nature, why the introduction of large trucks and excavation activities? This does not appear to be a good partner to the other listed projects.

As a home owner in the San Juan River Village, I am saying NO to the Gravel Pit!!!
