Comments: My father built the cabin located at --- --- ----- in San Juan River village 40 years ago. He picked the lot because of the amazing scenery, the view of the mountains, and the quiet solitude. The cabin has been passed down to my brother and me and we cherish the weeks we stay in this beautiful place. You will find us sitting on the deck overlooking the mountains for hours and hours each day. I truly cannot imagine anyone choosing to ruin the beauty and the calming peace and quiet of this mountain with 40-50 dump trucks driving up and down the mountain daily to a gravel pit! Please please do not ruin the peaceful landscape that God created. Please find another area where the residents are affected in such a negative way. We are asking for you to please leave us with the beauty and quiet God created!
