Comments: Secure the shelter for safety apart from just the top part that was boarded off. Open donations though Appalachian Trail Conservancy with the CLEAR message that if not enough funds are collected, the balance still goes to trail maintenance. Money can go to further securing it so that folks can't get it. It does not have to be a shelter, the building itself is iconic and part of the view; just beautiful. Comparing it to the Stan Murray is a non starter. Smaller, no view, not as iconic. Again, it does not have to "be" a shelter. I personally would donate. Did anyone solicit an estimate from a REAL contractor and not volunteers on how much to fortify the building for lower half use only?
