Comments: We have to be realistic in how many visitors can be accommodated & not ruin the habitat of the wildlife living near the Mendenhall Glacier. This is what the locals & tourists come to see. My concern is that the results will be a commercialized Mendenhall Glacier. We need to protect our panoramic view, the well being of the wildlife, minimize buildings & avoid any motorized boats. Do not overdevelop this area. The above ground viewing areas with gates to keep people & wildlife safe & separated from each other is a positive addition to the enjoyment of the area. (Alternative 6 best meets my concerns)
