Comments: I am a homeowner in the Sn Juan River Village and this pit will be 2000 feet from the nearest home in my neighborhood and it is also going to be placed in the middle of a new mounting bike trail. I fear the impact that this will also have on wildlife as I have lived here for a long time and I mountain bike and hike and have appreciated the untouched nature of the mountain. To see it change and the negative impacts it will have as stated is heart breaking. There are alternative locations. I mountain bike and run this road and there will be over 20 gravel trucks a day on this small Forrest Road. To say this won't impact the turkey, deer, elk and other wildlife is ignoring facts. I am strongly opposed to the gravel pit.
